

Bepop headphones

SKU: TEJZBEP0P

Wireless headphones with Active Noise Cancelling technology, microphone and built-in controls

WHY CHOOSE THEM?

Vibrant, energetic, fast and unconventional: these **Bepop wireless headphones** provide sound quality that allows you to experience the music's intense emotions.

You won't be able to do without these headphones, thanks to their unparalleled comfort and innovative solutions.

INNOVATION FLOURISHES

Bepop was born in the 40s in New York, a movement in opposition to everything that was shallow and commercial, reinventing the classic styles of Jazz. These wireless headphones have the same spirit: the experience of listening to music becomes **absolutely innovative and unconventional**.

Extremely light and flexible, Bepop stands out thanks to modern metal inserts and a sophisticated leather-like finish. The earpieces provide an enviable grip and are extremely stable.

Thanks to **ANC technology - Active Noise Cancelling** - background noise is eliminated, guaranteeing you a clean clear sound that allows you to catch all the enthralling nuances of your favourite tracks.

Built-in controls let you adjust the volume, change tracks and answer calls through the microphone that is fitted to the headphones.

THE IDEAL GIFT

The packaging of products in the Jazz range is characterized by a description of the genre from which they take their name. The whole thing is embellished with a card record that offers you a special YouTube SBS playlist. An **original gift idea** to amaze all your friends who love good music.

INIMITABLE STYLE

The Bepop genre is synonymous with free musical expression: these headphones reflect that spirit with their decisive character and **unparalleled style**.

Stand out from the crowd right away.
